# BLAMED FOR WAR.

Colonel Campbell Says Bryan Keeps the Rebellion Alive.

## IN ALL THE FILIPINO LETTERS

Are Evidences That Rebel Chiefs Build Hopes on Democrats-They Believe That the Downfall of Mc-Kinley Will Give Triumph to Their Cause-Aguinaldo Continually on

CHICAGO, Oct. 23.-"The insurrection in the Philippines is kept alive by pemocratic agitation." This was the emphatic declaration of Lieutenant Colonel James R. Campbell, of the Thirtieth Volunteer Infantry, which was or-ganized near Chicago little more than a year ago. Colonel Campbell, who is a life-long Democrat and resigned a Demgratic seat in Congress to raise a regiment for the Spanish war, returned recently from the Philippines. He is an minels Democrat from Egypt, and he has always venerated the name of Dem-ocrat until now. He cannot, however, fight rebels and vote with a party that encourages the rebels to shoot at his soldiers. He refused to go with his party in its glorification of Aguinaldo, for the reason that as a soldier it is his sworn duty to assist in putting down Aguinaldo's insurrection.

Colonel Campbell is home on a thirty days' leave of absence. He left his regiment in the Philippines, where the boys are guarding the loyal Filipinos and their property from the attacks of the guerrillas, who are trying to murder and plunder all who do not follow the cause of Aguinaldo. Colonel Campbell will spend about a month at his home in Humilton county, and he will tell his old Democratic friends in that part of the state some things about the Philippines and the insurrection that they cannot learn from Mr. Bryan's speeches. He says that the insurrection is kept alive by Mr. Bryan's agitation against imperialism. "Aguinaldo and his small bands of maurading natives are keeping up the struggle in hope of Bryan's election," said Colonel Campbell.

"If it were not for the encouragement given them by Mr. Bryan in this country they would have given up the struggle long ago and the insurrection would have collapsed. The trouble would have ended with the assertion of our authority and driving Aguinaldo out of the vicinity of Manila.

#### Aguinaldo on the Run.

"Aguinaldo has been on the run for a year. He never stays in one place two nights at a time. He is continually on the move and in constant fear of assassination by his own men. The insur gents have no organization. They are simply roving bands of guerrillas. They are here to-day and there to-morrow They are always on the sneak or the run. They lie in wait for our soldiers or peaceful Filipinos and try to murder them. It is not war. It is simply murder and robbery by guerrillas. The Filipinos who have property and are intelligent have no sympathy with Aguinaldo and his insurrection. They do not care for Mr. Bryan's help. They desire that the United States shall retain the islands, and they fear that in case of Mr. Bryan's election he will place Aguinaldo in power. That would mean to them greater tyranny than they suffered under Spanish rule. They know Aguinaldo, and he is not a Washington to them. He is simply a leader of rebels, who would be a tyran and murder all who did not submit to

"There are intelligent and progressive Filipinos. They are good business men They have large interests, which are in danger from a change of administration here, because, according to Mr. Bryan's pledges, it means a change over there and a withdrawal of our protection.

## Opens New Markets.

"They do not want a change of administration here if I can judge. I know they do not want this government to carry out the pledges Mr. Bryan has been making regarding the Philippines. They feel the good effect of our expan-It has opened new mar kets to the Filipinos, and they do not want to lose the opportunities given them for new trade. I have talked to many of the natives and they tell me that the Filipinos are not ready for selfgovernment, and will not be for some years to come. They realized this the more clearly since they see what trouble Aguinaldo has made for them and the peaceful government of the islands with but a few thousand men. The insurrection would have ended soon after it began if it had not been for the agitation in this country, yet Aguinaldo has been kept informed of the division of sentiment here. He has been encouraged to continue the struggle with the hope of a Democratic victory in this country. He and his followers have been looking to Mr. Bryan to aid them in their insurrection. The insurrection has been kept alive by the Democrats. They are trying to make political capital out of a very dangerous question. While they are shouting against 'imperfallem' and glorifying Aguinaldo, out soldiers there are being shot down in defense of this country and flag. I say again, if it were not for Bryan and the promises he holds out to Aguinaldo, that renegade would long ago have given up the struggle, and peace would now reign in the Philippines. There would be no need for a large army there and for this aritation at home. Mr. Bryan has on his hands the blood of our boys who have been killed in the Philippines, if any outside agency can be held account-able for such a trouble.

### Done With Bryan.

"I am done with Mr. Bryan and his party. I voted for him four years ago, and was elected as a Democrat to Congreen at that time. I thought I was a good and loyal Democrat, but I can't vote for Mr. Bryan and Aguinaldo while I am in the army trying to put down the haurrection which they are keeping slive. I shall advise all Democrats I know who are interested in me and the fillnois boys who went with me as membern of the Thirtleth Volunteers to the Philippines, to vote for the party that apports the flag and the soldiers who are fighting in its defense, and not for

the party that makes a hero of the little insurgent chief who began this trouble by attacking our soldiers, and whose followers are still sneaking through the high grass, trying to get a shot at our men and kill them.

'I am not that kind of a Democrat. I shall vote for McKinley if I am allowed to remain at home until election day." Colonel James Campbell is known all over Southern Illinois. He was several times elected to the legislature and he perved eight years in the state senate Four years ago he was elected to Congress as a Democrat, and he acted with his party on all questions which came before the house of representatives.

#### WHEELING WHOLESALE MARKETS Weekly Change of Quotations in all Lines of Local Trade.

Office of the Intelligencer, Wheeling, Oct. 23.

Provisions and flour have been generally weak. Meats and lard are exshow a downward tendency. Flour is equally certain to advance when the Chicago shorts have made their play. The heavy receipts of coffee at Santos

and Rio have weakened the market.

A decline in sugar is to be expected within a short time; raw sugars are easier.

Evaporated fruits are not in active demand, but prices are strong. One local house has received two

cars California prunes, two cars rai-sins, one car lima beans, three cars sins, one car lima beans, three cars California canned goods, all of which are meeting with a ready sale. The de-

mand for navy beans is unusual.

The future of the market is not well defined and uncertain.

Peaches are out of market, season about over. Quinces are arriving freely from York state, also apples and pears, with good sales. Grapes have advanced slightly, which slackens sales. Apples, cabbage, potatoes and onions for the winter stock are being largely sold. Bananas have improved some what in sales, with the smaller fruits out of market. Butter and eggs both show an advance. Oleomargarine is now being largely sold in this vicinity as butter advances. General trade in produce has been good, with an improvement in collections.

flurry in the call money rate to 6 per cent was taken to heart by the specula tive element to-day, and the rather in-temperate buying which has flooded the market since the latter part of last week was materially curtailed. There was a great deal of business done in the first hour, but the selling to realize clearly out-weighed the buying demand, in spite of some sharp manipula-tive advance in a few specialties and the average level of prices went below last night. The selling was not at all precipitate and showed a tendency to decrease as prices receded to the lower level, but when efforts were made to bid up prices again it was found that selling orders were waiting at the higher level in sufficient volume to force prices back again. Later in the day a much heralded upward movement in Northern Pacific came into notice. several days past rumors have been heard of a bull pool in this stock based on the large short interest known to exist in it and the reduced floating sup-ply, owing to the recent buying of a substantial character which appeared through some very heavy selling with out material set-back to a shade over 58, making the net gain 2% per cent. Great northern preferred was advanced points correlatively. It was alleged in behalf of the movement that the im-pairment in the earning powers of railroads in the northwest by the shortage of the spring wheat crop had been greatly over-stated. The statement of

when the quotation got below 50. The price was 54½ to-day, when the advance began and it carried the quotation up Northern Pacific for week in October shows a decrease in gross earnings of \$17,493, notwith-standing additional mileage compared with last year of nearly 400 miles. There was a notable disinclination in the rest of the market to respond to this movement and the recoveries were quite in-significant. The fall in the call loan rate to 2½ per cent in the last half hour was equally without effect in reawakening speculative interest and the market closed irregular at small net changes. The earlier rates for call loans ruled from 4 to 5 per cent and it is not unlikely that the late reaction was due to the abstinence of the spec-ulators from further encronchment on money resources. Banks called loans to the extent of several million dollars which resulted caused quite an active bidding for money. The events of the day had the effect of awakening some fresh uneasiness over the money mar-ket conditions and these were not altogether allayed by the renewed weakness of exchange, especially Paris cheques. The transfer of currency to New Orleans through the sub-treasury was also renewed to-day. Much doubt exists regarding the effectiveness of high call loan rates in renewing gold imports. The gold thus far secured was the result of scouring the open market supplies all over Europe, with-out arousing the opposition of the great central banking institutions, which ave to be considerable gold supply. Borrowers of time money show a disinclination to pay as much as 5 per cent, while bankers have counted upon a good market for time loans at 6 per cent. Whether they will be inclined to import gold

under the circumstances to meet the exigencies of speculation is a mooted question. There was a decided falling off in business in bonds, and prices reacted at various points. Total sales par value

nuceed mostly by a 1%4 drop at Inverpool ruled in the wheat pit throughout the session. The heavy movement, favorable weather and a slow cash demand added to the buil demoralization. Some export business was accomplished at the decline, but there was not enough of it to check the buil rout. The increase in the world's visible, 2,156,000 bushels, although under expectations, also failed to materially affect the price. The selling was general, the demand scattered and little calculated to withstand the heavy lines which came into the pit through commission houses. December opened %6%c lower at 73%c to 73%c, ralled early to 73%c, and then dropped steadily to 72%c near the end of the session. The close was weak, December 1½c down at 72%q072%c. The seaboard reported fifty-five loads taken for export and seventeen loads were sold direct from here. Seaboard December 1½c down at 72%@72%c. The seaboard reported fifty-five loads taken for export and seventeen loads were sold direct from here. Seaboard clearances in wheat and flour were equal to 421,000 bushels. Primary receipts were 1.081.000 bushels, compared with 1.183,000 bushels last year. Minneapoils and Duluth reported 576 cars, against 592 last week and 798 a year ago. Local receipts were 325 cars, five of contract grade. Argentine news was bearish reporting crop prospects improved. Fly was reported doing damage in Ohio.

Corn held remarkably steady in view Corn held remarkably steady in view of the contrary influences—wheat weakness, better weather, liquidation by longs, and the indifferent cables. December sold between 35%/235%c, closing %c lower at 35%c. October at one time touched 41c, or 1c over yeaterday's close, but later, influenced by the wheat weakness dropped to 39%c, %c under yesterday; receipts were 622 cars.
